

GRAPHIC ERA HILL UNIVERSITY, DEHRADUN

Profiling Sheet

Q.1: Write your career objective.

My career objective is to become a competent software engineer by gaining strong technical knowledge, practical experience and continuously improving my skills to contribute effectively in the IT industry.

Q.2: Why do you want to be an engineer? Elaborate reasons.

I want to be an engineer because I have a strong interest in technology and problem solving. Engineering allows me to apply theoretical knowledge to real-life problems. It also provides opportunities for innovation, learning and growth which motivates me to work hard and improve myself.

Q.3: Write about projects or internship you have done/ are doing along with the learning.

At "Pixel Pulse" a professional editing firm, I served as the PR manager overseeing the brand outreach and team coordination. I managed communication strategies to connect our editing services. This is the role I did along with my learning.

Q.4: What would you consider a significant achievement in your life and why?

Getting admission into an engineering program is a significant achievement for me because it was the result of consistent effort and dedication. Successfully completing my One and half year also gave me confidence to face academic challenges.

Q.5: Write about a failure of yours which you consider to share. What have you learned from it?

I faced difficulty in managing time during my initial semesters, which affected my performance. From this experience, I learned the importance of proper planning, regular study and discipline, and proper time management for smooth life routine.

Q.6: What are your strengths? Write one or two instances where you have demonstrated your strengths.

My strengths are consistency, sincerity, and willingness to learn. I have demonstrated these by completing assignments on time, learning programming languages step by step, and actively participating in academic activities.

Q.7: Write about your weaknesses. What are you doing to overcome your weaknesses?

One of my weakness is hesitation while speaking in front of others. I am working on it by participating in class discussions, presentations, and practicing communication regularly through various apps for overall exposure.

Q.8: What is the most difficult moment that you have faced in your life so far? What qualities helped you to overcome the moment?

The most difficult moment was adjusting to the engineering syllabus & workload in the first year without the proper direction. Patience, self-discipline and regular practice helped me out to overcome this phase.

Q.9: Apart from academics, what else are you interested in?

Make a separate list in terms of extracurricular activities, sports and any other interests.

Playing sports:

Listening to music

Exploring new technologies

watching informative videos

Q.10: Give an example of an area, concept or thing that you are absolutely passionate about.

I am passionate about programming because it improves logical thinking and allows me to create useful application and solutions.

Q.11: Describe yourself as an individual in 5 lines.

I am a motivated 2nd year btech student passionate about programming and technical innovation. I am a disciplined problem solver with a strong foundation in core computer science concepts. I aim to apply my analytical skills to excel in a professional tech environment.

Q.12: What kinds of people do you enjoy working with?

I enjoy working with people who are cooperative, positive, disciplined and willing to learn and share knowledge.

**Q.13: What kinds of people you don't want to work with?
What would you do if they became your senior in your dream job?**

I do not prefer working with people who are careless or negative. If they became my senior, I would remain professional, respect them and focus on learning and doing my work sincerely.

Q.14: What do you expect from your first job? Prioritize and write in order.

1. Learning opportunities
2. Good guidance and mentorship
3. Skill development
4. Healthy work environment
5. Job stability
6. Overall work experience

Q.15: In the past year, what have you been dissatisfied about in your performance?

I was dissatisfied with my time management and productivity. I am now working on improving my planning and study routine for smoother working.

Q.16: Rate yourself out of 5 in verbal communication. What are you doing to improve your communication skills?

I rate myself 3 out of 5. I am improving by participating in group discussions, presentations and practicing speaking regularly.

Q.17: Who is your role model? What qualities of that person you would like to see in your personality and why?

My teachers are my role models. I admire their knowledge, discipline, patience and dedication, which I would like to develop in my own personality for my overall development.

Q.18: Write a few lines about your friends. Do you think they help/ may help you in achieving your goals? If yes, how? If no, why do you accompany them?

My friends are supportive and motivating. They help me by sharing knowledge, encouraging me during difficult times, and pushing me to improve academically & personally.

Q.19: Write 3 leadership qualities. How many do you possess? Write an instance where you have applied those qualities.

Leadership qualities include responsibility, teamwork, & decision making. I possess these qualities and have applied them while working on group projects & academic assignments.

Q.20: So finally, tell us something more about yourself or introduce yourself.

I am a computer science engineering student currently in my 2nd year, driven by a passion for technology & coding. My academic journey has built a strong foundation in programming and logical reasoning. Beyond technical skills, I am an effective communicator who enjoys collaborating on creative solutions. I am eager to apply my knowledge to real-world challenges. Ultimately, I am a proactive learner looking to grow within the evolving tech industry.

i Thankyou :-)
